

FOR IMMEDIATE RELEASE

August 21, 2015

RACINE, WISCONSIN

Joseph E. Sabol organized the program of the Division of Small Chemical Businesses SCHB at the American Chemical Society 250th National Meeting, August 16-20, 2015 in Boston MA. The meeting theme was *Innovation from Discovery to Application* and more than 14,000 chemical professionals attended the meeting.

The SCHB program had more than 40 speakers in symposia *True Stories from Entrepreneurs: BRIC Edition*, *The Legacy of Henry Hill: Commercial Enterprises in the Polymer Sector*, *Starting-Up & Spinning-Out: Commercializing Innovative Chemistry*, and *Big Chemistry from Small Businesses*. The full program can be found at www.acs.org/boston2015.

The ACS was founded in 1876, has headquarters in Washington DC, and currently has more than 164,000 members.

Sabol has served as the ACS SCHB program chair since 2008 and also serves on the ACS Committee for Chemistry and Public Affairs and the ACS Great Lake Region Board. Sabol is a consultant to the chemical, polymer, and semiconductor industries, and has offices in Racine WI and Marquette MI.
